The OCM Calibration Certificate on the left side of this PDF was not issued by Deckma according to Deckma. It is apparently the same as the authentic 2007 certificate depicted in Slides 2 and 5, except that the year has been modified.

The certificate on the left side of this PDF document has been pasted on top of the photograph in Slide 5. A portion of the 2007 certificate remains visible as shown in the next slide.

This PDF document was created on a computer associated with D. Liveris, according to the forensic image. See next image.
